EDUCATION

Kumasi Technical University

Bachelor of Technology in Computer Technology

Ghana, GH

Jan. 2023 – Present

Armed Forces Senior High School

General Science

Ghana, GH

Nov. 2019 – Sep 2022

EXPERIENCE

Junior Software Engineer

Microlynxe Systems Ltd

June 2025 – Nov 2025

Kumasi, GH

- Developed and maintained core features of the company website using React, React Router, and Bootstrap, improving UI consistency and usability
- Collaborated with developers and designers to implement responsive and user-friendly interfaces

Vice President

Amalitech Coding Club, KsTU

Jan. 2025 – Jan. 2026

Kumasi, GH

- Scaled club membership from 50 to 600+ by improving onboarding and engagement strategies
- Led and coordinated weekly coding sessions for 50+ members, improving participation and technical engagement
- Designed and delivered hands-on coding workshops, simplifying complex concepts into practical sessions

PROJECTS

Audiophile E-commerce Store | *FastAPI, React, PostgreSQL, Redis*

- * Built a full-stack e-commerce platform with FastAPI and React, supporting product browsing, authentication, and order workflows
- * Implemented secure JWT-based authentication and session handling
- * Designed RESTful APIs and optimized backend data access using PostgreSQL

FastShip | *FastAPI, React, PostgreSQL, Redis, Celery, Docker*

- * Built a full-stack delivery management system enabling sellers and delivery partners to manage and track shipments
- * Designed scalable REST APIs with FastAPI and structured domain models using SQLAlchemy with PostgreSQL
- * Implemented secure JWT authentication with token expiration and unique identifiers (jti) for session control
- * Developed asynchronous task processing using Celery and Redis to handle background operations without blocking requests
- * Containerized the application using Docker Compose, enabling consistent environments and streamlined deployment

TECHNICAL SKILLS

Languages: Python, Typescript, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: React Router, Next.js, Node.js, FastAPI, Tailwind

Developer Tools: Git, Docker, GitHub, VS code, Vercel, PGAdmin, PostgreSQL, Webpack, PyCharm, Google colab

Libraries: React, pandas, NumPy, Matplotlib, SQLAlchemy, Pydantic
